Standard limit of radio-waves for mobiles

296. SHRI KARNENDU BHATTACHARJEE: Will the Minister of COMMUNICATIONS AND INFORMATION TECHNOLOGY be pleased to state:

- (a) whether Government have set certain standard permissible limit of radio-waves for the mobiles;
- (b) if so, the details thereof; and
- (c) if not, the reasons for not setting limits for emission of radio-wave for mobile phones?

THE MINISTER OF STATE IN THE MINISTRY OF COMMUNICATIONS AND INFORMATION TECHNOLOGY (DR. SHAKEEL AHMAD): (a) to (c) The International Commission on Non-Ionising Radiation Protection (ICNIRP) of World Health Organisation (WHO) has recommended a standard limit for safety of health from wireless/electromagnetic radiations.

A committee was set up by the Ministry of Health and Family Welfare, under the Chairmanship of Director General, Indian Council of Medical Research, for preliminary study on health hazards due to mobile towers.

The Committee had extensive discussions and has opined that, overall, there is not enough evidence to show direct health hazards of RF exposures from mobile base stations.
